How sad the best that we can do is picking these pathetic two for President of our United States. One a bozo quite uncouth the other cannot tell the truth A sad choice to have on our voting plates! Yes it's fun to laugh and dump all over clownish Donald Trump who won't release a single tax return. A cad who smiles and offers scotch then grabs a woman by the crotch? It is enough to make one's stomach turn! But Clinton's scandal ridden past can also leave one quite aghast Emails, Benghazi. Also "pay to play." Since her tour as Sec of State the world ain't doin' great. Things continue downhill every day. So is there something one can do to rise above the current poo and circumvent the politician vermin? I know what my approach will be. My write-in vote for all to see will be for laid-back, upright Pee-wee Herman! ©2016 Lee Goldberg All rights reserved.
