My Green-Eyed Temptress Has eyes that are Bright Shining Alluring Inviting Mysterious Playful  
Vexing My green-eyed temptress has eyes that are Pools of love laced with golden glitter Pin pricks  
of desire boring into me Hints of passion yet to come Beacons of hope on a dark stormy night within  
my soul Transforming me Helping create a revival of passion within my soul A window to her soul My  
green-eyed temptress has eyes that are So kind So caring Slowly rescuing me from a vat of despair  
Showing me the future So overflowing with love Consuming me with ... Those green eyes...  
=+=+=+=+=+=+=+=+ For a very special friend here ... and hopefully she'll know and remember.
