Oh how I love you! I love you more than water I love you more than air I love you more than food Oh how I love you! The way you smile The way you walk The way you shake your ass Oh how I love you! I love our kisses in the morning Our hugs during the day Our cuddles at night Oh how I love you! Our great sexual chats Your great blowjobs after work Our great hot wild sex Oh how I love you! I would do anything for you I would go to the moon and back I would die if you ever left Oh how I love you! For loving me For the fire within Thank you for being mine Oh how I love you! Every hour of the day Every minute of the hour Every second of the minute Oh how I love you! I see you in everything I feel you in my heart I dream of you Oh how I love you!
