Batting eye lash, locking gaze Flaring nostrils, ragged breathing Blood red lips, lusciously thick Biting  
your lip, anticipation Eyes, drowning pools of lust Hungry stare drawing me in Smell of roses lurking,  
subtle Flush of heat, red glow rising Closing the abyss, tension rising Blinking eyes, breathing halted  
Sparks midair, between lips Radiating heat, readying impact Lips touching, parting expecting Reality  
kicking, butterflies exploding Dam of lust, breaking, shattering Lips devouring, tongue exploring  
Juices flowing, wrestling, sweating Heads tilting, hands wandering Bodies shaking, desires  
convulsing Body on body, perfect union, super nova
