Two lovers find other ways to make love felt.

Upon their bed both do lie Her on her side just right And him right behind Spooned together this tonight. His hand is on her stomach Pulling her closer and tight While she feels his warmth Lying there together tonight. He runs a finger down to her hip She slyly gives him a wiggle Coming back to the special place That always makes her giggle. She turns to face him now Just to look upon his face Small kiss on his lips Several gently there she place. He draws his hand to her face Drawing a line on her chin Going from her ear to ear Looking at her wear only a grin. She takes his hand in hers Kissing each finger tip Each finger one by one Tenderly upon her lips. Pulling his hand downward In the crevice of her breast He can feel her love beating Deep within her chest. He turns to lie flat now Her head on his shoulder rest Tis not a night for passion Sometimes just cuddles are best. Holding each others right hand With their fingers interlace They rest upon his abs Above his special place. Lying together in bed The couple drift off tonight Sometimes love making Without lust seems so right.
