Temptation You're like a drug that I could never get enough of You say my name it's like music to my ears You can't erase all of the things that you've done Well that's the thing I don't want you to change You're my temptation Just a little taste and I can't get enough You're like seduction You make me want to say yes You're like a song you can't help but repeat You can't even see what you've done to me It's like I've been running in circles Well that's the thing I really don't want to stop Cause your temptation Just a little taste and I can't get enough Just like seduction You make me want to say yes You're my temptation You're smile seems like the only thing I live for You always know the right things to say We fight so much but it all erases when I see your face Cause you're like my escape The only thing that keeps me alive My only evade You know just how to stop me You're my temptation Just a little sip and I can't help but chug Just like seduction You make me fight to say no Temptation You're like a drug I can't get enough of But that's the thing I don't really mind.
